

WHAT IS CLAIMED IS:

1. A filter cover assembly mounted to an opening of a casing of an air conditioning unit to close the opening, with a filter installed in the casing to remove impurities from air flowing into the air conditioning unit, comprising:
 - a first filter cover;
 - a second filter cover; and
 - a fastening unit to fasten the first filter cover to the second filter cover,wherein the first filter cover comprises a first cover body to close a predetermined portion of the opening of the casing, with a joining part provided on the first cover body to be locked to the casing, and
- 15 the second filter cover comprises a second cover body to close a remaining portion of the opening, with a engaging part provided on the second cover body to engage with the fastening unit.
- 20 2. The filter cover assembly according to claim 1, wherein the fastening unit comprises:
 - a rotary knob;
 - a locking member; and
 - a shaft to connect the rotary knob to the locking member.

3. The filter cover assembly according to claim 2, further comprising:

a hole provided on the first filter cover to receive both the locking member and the shaft of the fastening unit.

5

4. The filter cover assembly according to claim 2, further comprising:

a stop protrusion provided on the first filter cover to stop excessive rotation of the rotary knob of the fastening unit.

10

5. The filter cover assembly according to claim 1, further comprising:

a hole provided on the engaging part of the second filter cover to lock the fastening unit to the second filter cover.

15

6. The filter cover assembly according to claim 1, wherein the fastening unit is integrated with the first filter cover into a single structure.

20

7. The filter cover assembly according to claim 1, wherein the second filter cover is integrated with the casing of the air conditioning unit into a single structure.

25

8. The filter cover assembly according to claim 1, further

comprising:

a joining part provided on the second cover body of the second filter cover to lock the second filter cover to the casing of the air conditioning unit.

5

9. The filter cover assembly according to claim 1, further comprising:

10 a support part provided on the casing of the air conditioning unit to support the first cover body of the first filter cover or the second cover body of the second filter cover.
